

## CLERGYMEN PURSUED BY MARITAL WOES

First Wife Dies, Husband  
Claims Second, and Third  
Asks Separation.

TOLEDO, Ohio, July 24.—To have the first wife die, to have the second torn from home by the return of a supposed dead husband and to be sued by the third for separation after five months of married life has been the married experience of Rev. Jerome L. Goodrich, a prominent Westlinton, Ohio, minister.

The second wife was Mrs. Graham, of Columbus, who, believing that her husband had been killed, married Goodrich. After two months the husband returned, claimed and took with him his legal wife.

Last February, after a three-day courtship, the Rev. Mr. Goodrich married a third time. Anna K. Peruse, of Paris, was the bride. Today she had papers prepared asking the court to grant her a legal separation that she may return to France.

## INSULT TO WOMAN CAUSE OF TRAGEDY

Assailant and Companion  
Escape After Stabbing in  
Chicago Street.

CHICAGO, Ill., July 24.—Edward Werner, twenty-three years old, was stabbed to death today by a man who resented remarks he believed directed at a woman he was accompanying. The tragedy occurred at LaSalle avenue and West Ontario street. The victim was one of a crowd loitering on the corner. His slayer and the latter's companion were passing. Some one in the crowd made the remark which was resented, and the stranger strode toward Werner and harsh words were exchanged, followed by the knife thrust. Both the assailant and the woman escaped, and the police have been unable to ascertain anything pointing to their identity.

### COTTON MILLS CLOSE.

LAWRENCE, Mass., July 24.—The Pacific Cotton Mills, in this city and Dover, N. H., have been shut down and will reopen August 1. The mills employ about 5,000 operatives.

## OUTDOOR PREACHING HELD AT ANACOSTIA

The Rev. G. W. Cummings  
Delivers Sermon at Joint  
Services.

WASHINGTON TIMES BUREAU.  
ANACOSTIA, D. C., JULY 24.  
The Rev. George W. Cummings, pastor of the Garden Memorial Presbyterian Church, preached this afternoon at the men's Sunday service on the Christie lawn, on Good Hope road.

These services, conducted by the united churches of Anacostia, are to continue through the remainder of the summer.

Anacostia Chapter, No. 12, Royal Arch Masons, has closed its lawn party, which was held on the Christie lawn. A substantial sum was realized for a proposed lodge entertainment this fall.

The lawn fete held under the auspices of St. Teresa's Church of which the Rev. Charles M. Bart is the pastor, for the benefit of St. Teresa's Parochial School, on V street, proved successful.

About \$450 was realized. It is the intention to have another schoolroom in the building equipped by the fall term.

Emily Freeman, sixty years old, who has resided in the Stoddard Baptist Home, on Alabama avenue, for several years, developed symptoms of insanity yesterday. The woman became so violent that it was necessary to have her conveyed to the Washington Asylum Hospital for observation.

The children of the Anacostia Baptist Church, to the number of 200, were conveyed in a special car to Glen Echo on Friday, where they enjoyed their annual outing at the expense of the church. Superintendent John T. Dent looked after the welfare of the children.

Midwife Otterback, the manager of the Anacostia Bank, has gone to Westminster, Md., to recuperate. He was accompanied by Mrs. Otterback.

Leont, C. L. Plimmans, of the Eleventh Precinct, has gone to North Carolina. He will spend his annual leave in various parts of the State. Policeman J. L. Gillett, of the same precinct, has accompanied his family to Leonardtown, Md., for a week. Sergeant Charles A. Stevens will pass a portion of his vacation on a trip to New York by water, beginning next week.

Policeman T. A. Lusby, of the Eleventh Precinct, arrested a man whose actions excited suspicion. He proved to be Alphonse Laford, forty-nine years old, who had escaped from St. Elizabeth's Asylum. He was sent back.

Among the District troops in their summer camp are Paul Schilke, musician, and Walter Gray, guardsman, both of Anacostia.

## LUNA GOES AVIATING; SOLAR SYSTEM ASKEW

Washington Skygazers Puzzled by Moon's Antics, Reassured by Prof. Hall's Explanation That Variation of Angles Is the Cause.

The woman in the moon has gone gadding, and knocked the celestial scheme of things into a cocked hat. And she has taken the moon along with her. As a queen of aviators and a circle in irregular paths through the ambient, she has Hamilton and Curtis looking like a lot of dubs at a country fair.

In short, the moon is askew. This fact was noticed last night by many Washingtonians who sat upon their front porches to watch the moon rise in the same old way in the same old position with the same old flood of silver radiance that has acted for centuries as the greatest matrimonial agency known to history. The silver radiance was right there.

But the moon, carried away by the woman, was not right there. It was in a new place, and those who saw it wanted to know why. One native of Missouri went to the telephone and asked Prof. Asaph Hall, of the Naval

Observatory, whether, in his capacity of official stargazer for the Government, he could explain why the moon was so far to the south.

The professor could and did. The moon had fooled many Washingtonians by getting out of the beaten path, but it could put nothing over on the professor.

"The moon," he said, "rose this week at a southern point where the sun will rise next December. In the summer the sun is high while the moon is low, and in the winter it is vice versa."

He explained this by the variation of the angles of the earth to the moon and sun.

### "HER" PICTURE PERMISSIBLE.

ANNAPOLIS, Md., July 24.—Midshipmen no longer will be forced to forego the pleasure of having the picture of their best girl adorn their walls, or other photographs and posters to help decorate their rooms, if the recommendations of a specially appointed naval board just completed are approved by the Navy Department.

## ACCUSED OF MURDER, BOY WEEPS BITTERLY

Admits Being With Aged  
Victim, But Denies Com-  
mitting Crime.

BRISTOL, Tenn., July 24.—Harry Lewis, the sixteen-year-old boy charged with the murder of H. F. Zachary, a wealthy, aged citizen of Roanoke, who was captured in Bristol last night, is being held, pending the arrival of Roanoke officers.

Since the moment he was told that he was wanted for having slain Zachary, he has wept bitterly, and at times almost collapsed.

He admits having been with the aged man constantly for several days prior to the murder and as late as 5 o'clock on the afternoon of the murder, but says he is not guilty.

The murderer of Zachary left \$25, which was sewed up in his clothes. A 22-caliber revolver was used, and a weapon of this caliber was found on Lewis.

ICE CREAM CONES SEIZED.

Government to Stop Sale of Product That Contains Borax.

Prosecutions against manufacturers of ice cream cones containing borax are to be instituted by the government, under the pure food law.

Later seizures of cones were made recently in different parts of the country by inspectors of the Department of Agriculture. Analyses of the cones seized disclosed the presence of borax, a property which has been held to be deleterious to the human stomach.

The cones were found to contain also saccharine and benzoate of soda, but it was said at the department that the proposed prosecutions would be based solely on the presence of borax. Inspectors will continue to make seizures wherever cones containing borax are found. Manufacturers using borax contend that this ingredient is necessary to make the cones hold their shape.

GYPSY KING WANTS AN AID.

They Weren't  
"The  
Velvet Kind"  
Cones!

This clipping from the Washington Post of July 21, 1910, is a convincing argument why you should insist upon the "Velvet Kind" Ice Cream Cones if you want wholesomeness and absolute purity.

## "The Velvet Kind" Ice Cream Cones Are Guaranteed to Be Pure

Chapin-Sacks Manufacturing Co., makers of the famous "VELVET KIND" ICE CREAM and "VELVET KIND" ICE CREAM CONES, GUARANTEE that

## The "Velvet Kind" Ice Cream Cones

Contain no benzoate of soda, boric acid, saccharine, or preservatives of any kind, or any ingredient that is injurious to health.

OUR PLANT IS OPEN FOR INSPECTION AT ANY TIME
